

32" LCD HDTV

This 32" LCD HDTV is big enough to give you a great view but small enough to fit in any space. 1080p resolution produces amazing images that are sharp and vivid while a 60,000:1 contrast ratio takes contrast and brightness to a new level. The LN32B530 is also Energy Star compliant, which helps you be green while saving on your electric bill.

1080p resolution

Enjoy outstanding clarity and resolution with this SAMSUNG LCD HDTV. Images are crisper, sharper, with superior details.

built-in digital tuner

All SAMSUNG LCD HDTVs have an integrated digital tuner. So, whether you're watching over-the-air HD digital broadcasts or connecting to cable/satellite service, SAMSUNG has got you covered..

game mode

Get in the game with enhanced blacks, sharp picture quality and optimum audio. At the touch of a button, game mode speeds up the image processing response so you get the

60,000:1 dynamic contrast ratio

Contrast and brightness levels achieve new heights in this HDTV. Get a more realistic, sharper picture quality that's sure to catch your eye and watch movies and shows come to life.

most out of your gaming experience.

ENERGY STAR compliant

By being ENERGY STAR compliant you are assured that your SAMSUNG model is helping the environment by using less energy while saving you money. ENERGY STAR is a joint program of the U.S. Environmental Protection Agency and the U.S. Department of Energy promoting energy efficiency.

6ms response

One of the most important features for an LCD panel is the pixel response time. Response time refers to the amount of time it takes a pixel to "refresh" itself-to go from being active to being inactive, (ready to be re-activated). The lower the milliseconds, the faster the response time. A very fast 6ms response time virtually eliminates any blurring and gives you smooth-motion action scenes.
